

Brand Factory.

Sustainability:

Meeting our own needs without compromising the ability of **future generations** to meet their own needs.

Brand Factory.

Brand Factory, a new division of Mr. Bar-B-Q, strives to create a real connection to people and product through

design, touch, materials &
SUSTAINABILITY

We aspire to be leaders in the sustainable products movement.

Our materials:

MADE WITH OCEAN BOUND PLASTIC

OBP is abandoned plastic waste on its way to our oceans. Collection and reuse of OBP is a critical element in the fight against pollution.

MADE WITH RECYCLED PLASTIC

Post-consumer waste plastic from fast food restaurants and other locations is collected and brought back to our plant for processing.

MADE WITH SUGARCANE

Sugarcane is a recyclable natural material that is very resilient. It also absorbs carbon dioxide, one of our biggest pollutants.

MADE WITH COFFEE GROUNDS AND HUSKS

Coffee grounds and husks are discarded waste that can be turned into new products.

Our brands:

Hip®

Live in harmony with nature by pairing innovative materials with thoughtful and elevated design.

eku®

A collection of kitchen products that look as good as they work, with features such as comfortable grips, easy to clean detailing, and enhanced functional performance.

LIVE-ECO

As manufacturers, we are here to give waste a second chance. Our goal is to help use up left over industrial waste and post-consumer waste and turn it into products you will use everyday.

Jolli™

Let's Jolli up the world

A brand of daily life products that makes life happier. We believe beauty and design can change our perception of the world. It's time to bring positive vibes and Jolli up the world.

Overproduction in the world has led us to rethink how we can make a difference. **Hip** is about making purposeful, functionally designed products that are **sustainable, recyclable, reusable and BPA free.**

OUR COMMITMENT

To live in harmony with the nature around us by pairing innovative materials with thoughtful and elevated design.

OUR GOAL

To create a real connection to people and product through design, touch, materials and sustainability.

OUR PHILOSOPHY IS "LESS IS MORE"

It's about choosing just the right products to suit your lifestyle and your home.

OUR COLORS

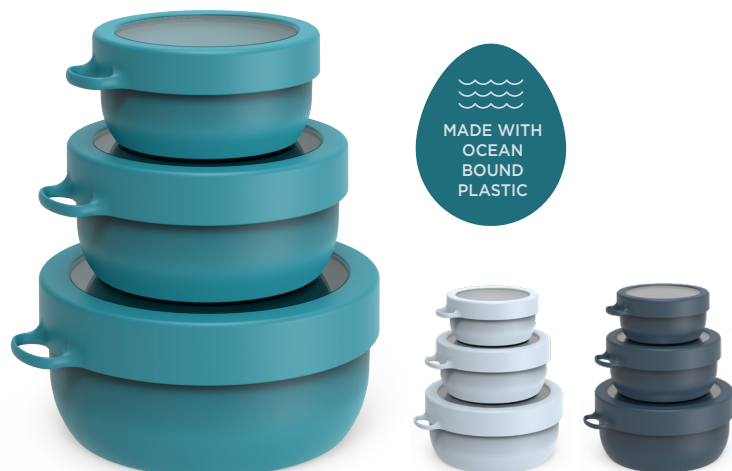

Inspired by nature – soft and tonal

We've partnered with OCEANWORKS®, the largest global marketplace for sustainable materials. We are able to source discarded *ocean bound plastics (OBP)* from developing communities, directly helping those with no existing recycling infrastructure.

OCEANWORKS® ensures that materials used are vetted, food-safe, and help communities where collection takes place.

Live life in the present and take care of your future.

The design of **eKu** products places the focus on **fun, functionality, durability, comfort and fashion.**

About eKu

eKu was born out of the enjoyment of living in the moment, stopping to reflect reconnect, love and laugh. Our connection to each other and the world around us. The past the present and the future... an emotional connection to each other and the life we live.

LIVE·ECO

Available Now on Direct Import Only

As manufacturers we are here to give waste a second chance. Our goal is to take recycled materials and turn them into cool products you will use everyday.

OUR VISION

To move away from single-use plastic and ensure our plastic waste doesn't end up in landfills and in nature.

OUR MATERIALS

Plastic is made to stand the test of time, but sadly most are made from virgin materials with no recycled content. Off-cuts and wastage in production are simply discarded. It is our goal to take off-cuts, wastage and post consumer waste and turn into recycled plastic that can be used for every day items.

MADE WITH RECYCLED PLASTIC
